ABOUT US DEVI CHEMICALS

— WORKING SINCE 1989 —

ADDING COLOR. ENHANCING PERFORMANCE.
CREATING VALUE SINCE 1989.

Since 1989, **Devi Chemicals** has been a trusted name in the masterbatch industry, delivering innovative, high-quality, and cost-effective solutions to customers across the globe.

We specialize in the manufacturing of Black Masterbatch, White Masterbatch, Colour Masterbatch, Additive Masterbatch and Filler Masterbatch that enhance the appearance, performance, durability and value of plastic products.

Our advanced manufacturing processes, stringent quality control systems and customer-focused approach enable us to provide consistent products that meet international standards.

Devi Chemicals proudly exports its premium masterbatch solutions to various countries, including **Africa, Tanzania, Germany, Bangladesh** and many other global markets.

Our masterbatches are widely used in packaging, agriculture, pipes & fittings, automotive, household products, woven sacks, electrical components, construction, and many other industries.

At **Devi Chemicals**, we believe in long-term relationships built on quality, trust and performance. Your success is our commitment.

WHY CHOOSE DEVI CHEMICALS?

- ✓ Established in 1989 with decades of industry experience
- ✓ Wide range of Masterbatch Solutions
- ✓ Consistent Quality & Excellent Dispersion
- ✓ Advanced Technology & In-House R&D
- ✓ Customized Formulations & Shade Matching
- ✓ Global Export Network
- ✓ Competitive Pricing
- ✓ Timely Delivery
- ✓ Dedicated Technical Support
- ✓ Sustainable & Environment Friendly Approach

— YOUR VISION. OUR MASTERBATCH. ENDLESS POSSIBILITIES. —

OUR PRODUCTS

High Performance Masterbatches for Every Need

BLACK MASTERBATCHES

High carbon black content for excellent dispersion and rich, deep black color.

USES

- Pipes & Fittings
- Agricultural Films
- Geomembranes
- Cables & Wires
- Automotive Parts
- Houseware Products

WHITE MASTERBATCHES

Superior whiteness, brightness and opacity for enhanced appearance and performance.

USES

- Carry Bags & Films
- Injection Molding
- Woven Sacks
- Household Appliances
- Sheets & Profiles
- Pipes & Fittings

COLOR MASTERBATCHES

Wide range of vibrant shades with excellent color strength and consistency.

USES

- Packaging Films
- Consumer Products
- Toys & Stationery
- Furniture
- Textiles & Fibers
- Automotive Interiors

FILLER MASTERBATCHES

Cost-effective solutions that improve dimensional stability and overall product quality.

USES

- Blow Molding
- Injection Molding
- Sheet & Profile
- Pipes & Fittings
- Woven Products
- Cables & Wires

ADDITIVE MASTERBATCHES

Specialized solutions to enhance performance, protect and add value to your products.

USES

- UV Stabilizer
- Optical Brightener
- Anti-Block
- Anti-Slip
- Flame Retardant
- Antistatic
- Processing Aids

QUALITY IS OUR PRIME FOCUS

APPLICATIONS OF MASTERBATCHES

Our high performance masterbatches are widely used across diverse industries to enhance appearance, performance and functionality of plastic products.

PACKAGING

- Carry Bags
- Packaging Films
- Stretch Films
- Shrink Films
- BOPP / CPP Films
- Laminated Films
- Food Packaging

AGRICULTURE

- Mulch Films
- Drip Irrigation Pipes
- Greenhouse Films
- Silage Films
- Seedling Trays
- Agriculture Pipes
- Shade Nets

AUTOMOTIVE

- Interior Parts
- Bumpers
- Dashboard Components
- Door Panels
- Wire & Cable Insulation
- Under the Hood Parts
- Battery Components

HOUSEHOLD

- Storage Containers
- Buckets & Mugs
- Baskets & Trays
- Dustbins
- Kitchenware
- Bathroom Accessories
- Hangers & Cloth Clips

BUILDING & CONSTRUCTION

- PVC Pipes & Fittings
- Conduits & Cable Ducts
- Window & Door Profiles
- Roofing Sheets
- Wall Panels
- Water Tanks
- Insulation Materials

ELECTRICAL & ELECTRONICS

- Wire & Cable Insulation
- Switches & Sockets
- Electrical Conduits
- LED Housing
- Junction Boxes
- Appliances Components
- Electronic Housings

CONSUMER GOODS

- Toys & Playthings
- Stationery Items
- Luggage & Suitcases
- Pens & Markers
- Furniture
- Sports Goods
- Lifestyle Products

TEXTILE & FIBER

- Fiber & Filament
- Raffia
- Woven Sacks
- Nets & Ropes
- Non Woven Fabrics
- Geotextiles

INDUSTRIAL APPLICATIONS

- Industrial Crates
- Pallets & Bins
- Drums & Barrels
- Conveyor Parts
- Protective Packaging
- Engineering Plastics
- Industrial Components

SOLUTION

Stronger Products. Brighter Colors.
Better Performance.

PREMIUM QUALITY

BLACK MASTERBATCH

RICH BLACK. SUPERIOR PERFORMANCE.

Our Black Masterbatch is produced using high carbon black content and advanced dispersion technology to deliver deep black color, excellent UV resistance and consistent quality for a wide range of plastic applications.

HIGH DISPERSION
Excellent distribution for uniform color

UV RESISTANT
Enhanced UV stability for long life

DEEP & RICH BLACK
High tint strength for deep black finish

CONSISTENT QUALITY
Strict quality control for reliable results

HIGH CARBON BLACK CONTENT

For deep, rich black color

GRADES & SPECIFICATIONS

GRADE	BASE RESIN	CARBON BLACK CONTENT (%)	CARRIER RESIN	TYPE OF APPLICATIONS
BM-101	PE	30 - 35	LLDPE	Blow Molding, Film Extrusion, Injection Molding
BM-201	PP	30 - 35	PP	Injection Molding, Woven Sacks, Household Products
BM-301	PE	40 - 45	LLDPE	Agricultural Films, Drip Irrigation Pipes, Mulch Films
BM-401	PP	40 - 45	PP	Sheets, Profiles, Crates, Automotive Components
BM-501	PE	50 - 55	LLDPE	Heavy Duty Films, Pipes, Geomembranes
BM-601	PP	50 - 55	PP	Automotive Parts, Electrical Components, Industrial Parts
BM-701	PVC	35 - 40	PVC	Pipes, Fittings, Cables, Profiles
BM-801	PE	60 - 65	LLDPE	High Performance Pipe, Geomembranes, Water Tanks

* Carbon black content and carrier resin can be customized as per customer requirements.

AVAILABLE SHADES

JET BLACK High jetness, intense black with high gloss	EXTRA DEEP BLACK Extra deep black with ultra high tint strength	MEDIUM BLACK Balanced shade with good hiding and dispersion	STANDARD BLACK General purpose black with excellent performance	ECONOMY BLACK Cost effective black for non-critical applications

Custom shades and formulations available to meet specific performance and application requirements.

DEEP & RICH BLACK
High carbon black for superior blackness and excellent hiding power.

UV & WEATHER RESISTANT
Long lasting performance in outdoor conditions with excellent UV stability.

EXCELLENT PROCESSABILITY
Smooth processing with consistent flow and minimal die build-up.

WIDE COMPATIBILITY
Compatible with PE, PP, PVC and their blends for diverse applications.

USES / APPLICATIONS

PIPES & FITTINGS
HDPE/PP pipes, conduits, irrigation pipes, fittings

PACKAGING
Bags, films, liners, shrink films

WOVEN & RAFFIA
Woven sacks, jumbo bags, raffia products

HOUSEHOLD PRODUCTS
Buckets, bins, crates, trays, storage containers

AUTOMOTIVE
Interior & exterior parts, bumpers, trims, components

SHEETS & PROFILES
Sheets, boards, panels, profiles, extrusions

ELECTRICAL
Cable insulation, junction boxes, switch housings

AGRICULTURE
Mulch films, greenhouse films, silage films, drip tapes

GEOMEMBRANES
Pond liners, landfill liners, waterproofing applications

CONSISTENT QUALITY

RELIABLE PERFORMANCE

CUSTOMER SATISFACTION

PREMIUM QUALITY

WHITE MASTERBATCH

SUPERIOR WHITENESS. ENHANCED PERFORMANCE.

Our White Masterbatch is manufactured using high quality titanium dioxide and advanced dispersing technology to deliver excellent whiteness, brightness, opacity and processing performance across a wide range of plastic applications.

EXCELLENT WHITENESS

High brightness and opacity for superior appearance

CONSISTENT QUALITY

Uniform dispersion for consistent results

IMPROVED PROCESSABILITY

Smooth flow and better surface finish

UV STABILITY

Enhanced resistance to UV for outdoor applications

HIGH QUALITY TiO₂ CONTENT

For superior whiteness & opacity

USES / APPLICATIONS

PACKAGING

Bags, Films, Pouches, Laminate Films

PIPES & FITTINGS

Irrigation Pipes, Conduits, Plumbing Pipes

HOUSEHOLD PRODUCTS

Buckets, Bins, Trays, Storage Containers

WOVEN & RAFFIA

Woven Sacks, Raffia, Jumbo Bags

SHEETS & PROFILES

Sheets, Boards, Profiles, Panels

AUTOMOTIVE

Interior Parts, Bumpers, Trim Components

ELECTRICAL APPLIANCES

Switches, Housings, Fan Blades, Covers

AGRICULTURE

Mulch Films, Greenhouse Films, Seedling Trays

GRADES & SPECIFICATIONS

GRADE	BASE RESIN	TiO ₂ CONTENT (%)	CARRIER RESIN	TYPE OF APPLICATIONS
WM-101	PE	60	LDPE	Blow Molding, Film Extrusion, Injection Molding, Pipe
WM-201	PP	60	PP	Injection Molding, Woven Sacks, Household Products, Raffia
WM-301	PE	70	LDPE	High Opacity Films, Bags, Agricultural Films
WM-401	PP	70	PP	High Whiteness Injection Molding, Sheets, Profiles
WM-501	PE	80	LDPE	Premium High Whiteness Films, Laminate, Co-extrusion
WM-601	PP	80	PP	Premium High Whiteness Injection Molding, Raffia

* TiO₂ content and carrier resin can be customized as per customer requirements.

AVAILABLE SHADES

STANDARD WHITE

High opacity with balanced whiteness

BRIGHT WHITE

Enhanced brightness and clarity

SUPER BRIGHT WHITE

Superior whiteness and opacity

CUSTOM SHADES

Tailor-made shades as per customer requirement

Custom shades and formulations available to meet specific performance and application requirements.

EXCELLENT OPACITY

High hiding power for brilliant white appearance

BETTER AESTHETICS

Improves surface finish and product appeal

UV & WEATHER RESISTANT

Long lasting performance in outdoor conditions

COST EFFECTIVE

Optimized formulation for better value

PREMIUM QUALITY

COLOUR MASTERBATCH

VIBRANT COLOURS. CONSISTENT PERFORMANCE.

Our Colour Masterbatch is manufactured using high quality pigments and advanced dispersion technology to deliver bright, consistent and long lasting colours with excellent heat stability and superior processing performance for a wide range of plastic applications.

WIDE COLOUR RANGE
Available in a wide spectrum of brilliant shades

EXCELLENT COLOUR STRENGTH
High tinting strength for vibrant and consistent colour

SUPERIOR DURABILITY
Excellent heat, light & weather stability

EASY PROCESSING
Smooth flow and excellent dispersion in base resin

CONSISTENT QUALITY
Strict quality control for uniform colour in every batch

GRADES & SPECIFICATIONS

GRADE	BASE RESIN	CARRIER RESIN	PIGMENT TYPE	TYPE OF APPLICATIONS
CM-101	PE	LLDPE	Organic	Film, Blow Molding, Pipe
CM-201	PP	PP	Organic	Injection Molding, Woven Sacks, Household Products
CM-301	PE	LLDPE	Inorganic	Agricultural Films, Drip Irrigation Pipes, Mulch Films
CM-401	PP	PP	Inorganic	Crates, Automotive Parts, Appliances
CM-501	ABS	ABS	Organic	Electrical Appliances, Consumer Goods, Toys
CM-601	PVC	PVC	Inorganic	Pipes, Profiles, Cable Compounds, Flooring
CM-701	PET	PET	Organic	Bottles, Preforms, Fibers
CM-801	PS	PS	Organic	Disposable Items, Stationery, Packaging

* Carrier resin can be customized as per customer requirements.

AVAILABLE SHADES

Custom shades and formulations available to meet specific performance and application requirements.

USES / APPLICATIONS

PACKAGING
Films, Bags, Pouches, Shrink Films, Containers

PIPES & FITTINGS
PVC, HDPE, PPR Pipes, Conduits, Plumbing Fittings

HOUSEHOLD PRODUCTS
Buckets, Bins, Trays, Baskets, Storage Boxes

WOVEN & RAFFIA
Woven Sacks, Jumbo Bags, Raffia Products

AUTOMOTIVE
Interior Parts, Bumpers, Trim Components

AGRICULTURE
Mulch Films, Shade Nets, Seedling Trays, Drip Tapes

CONSUMER GOODS
Toys, Stationery, Furniture, Electrical Appliances

BUILDING & CONSTRUCTION
Profiles, Boards, Panels, Water Tanks

BRIGHT & VIBRANT COLOURS
High hiding power for excellent colour appearance

EXCELLENT DISPERSION
Uniform particle size for consistent colour and finish

HIGH HEAT STABILITY
Withstands high processing temperatures

UV & WEATHER RESISTANT
Long lasting colour performance in outdoor conditions

COST EFFECTIVE
Optimized formulation for better value and performance

CONSISTENT QUALITY

RELIABLE PERFORMANCE

CUSTOMER SATISFACTION

PREMIUM QUALITY

ADDITIVE MASTERBATCH

ENHANCED PERFORMANCE. ADDED ADVANTAGE.

Our Additive Masterbatch is engineered using high performance additives and advanced dispersion technology to impart special functional properties to plastics, improve product performance and provide cost-effective solutions for a wide range of applications.

ENHANCED PERFORMANCE

Improves mechanical, thermal & optical properties

UV & WEATHER PROTECTION

Protects from UV degradation and weathering

PROCESSING IMPROVEMENT

Better flow, higher output and consistent quality

COST EFFECTIVE

Reduces overall cost and improves product value

SUSTAINABLE SOLUTIONS

Helps in recycling, light-weighting & resource efficiency

FUNCTIONAL ADDITIVES FOR SUPERIOR RESULTS

GRADES & SPECIFICATIONS

GRADE	MAIN FUNCTION	BASE RESIN	ACTIVE CONTENT (%)	TYPE OF APPLICATIONS
AM-101	UV Stabilizer	PE, PP	10 – 30	Agricultural Films, Pipes, Outdoor Products, Automotive Parts
AM-201	Optical Brightener	PP, PE, PS	5 – 15	Packaging, Woven Sacks, Household Products, Textiles
AM-301	Slip	PE, PP	10 – 25	Films, Sheets, Injection Molded Parts, Extrusion Products
AM-401	Antiblock	PE, PP	10 – 25	Stretch Films, Packaging Films, Laminates
AM-501	Flame Retardant	PP, PE, ABS	20 – 40	Electrical Components, Appliances, Automotive, Construction
AM-601	Anti-Static	PE, PP	10 – 20	Electronic Packaging, Films, Sheets, Industrial Components
AM-701	Processing Aid	PE, PP, PVC	5 – 15	Pipes, Profiles, Films, WPC, Masterbatches Compounding
AM-801	Nucleating Agent	PP	10 – 20	Injection Molding, Thin Wall Products, Containers

* Active content and carrier resin can be customized as per customer requirements.

NATURAL

CUSTOM SHADES
(As per requirement)

Custom additive formulations available to meet specific performance and application requirements.

USES / APPLICATIONS

PACKAGING & FILMS

Improves clarity, slip, anti-block, UV protection and shelf life.

PIPES & FITTINGS

Enhances weatherability, strength and long term durability.

HOUSEHOLD PRODUCTS

Improves appearance, thermal stability and impact strength.

AUTOMOTIVE

Better heat resistance, UV stability and dimensional stability.

ELECTRICAL & ELECTRONICS

Provides flame retardancy, anti-static and electrical insulation.

WOVEN & RAFFIA

Improves strength, printing quality and UV resistance.

AGRICULTURE & CONSTRUCTION

Enhances durability, UV stability and performance in harsh environment.

IMPROVED DURABILITY

Extends product life with better protection against degradation.

THERMAL STABILITY

Enhances heat resistance and dimensional stability.

EASY PROCESSING

Improves flow, reduces friction and cycle time.

COST SAVINGS

Reduces overall processing cost and material waste.

SUSTAINABLE SOLUTIONS

Supports recycling and helps in creating eco-friendly products.

CONSISTENT QUALITY

RELIABLE PERFORMANCE

CUSTOMER SATISFACTION

PREMIUM QUALITY

FILLER MASTERBATCH

ENHANCED PERFORMANCE. GREATER VALUE.

Our Filler Masterbatch is formulated with high quality mineral fillers and advanced dispersion technology to improve dimensional stability, stiffness, impact strength and reduce overall production costs. It provides excellent dispersion, consistent quality and outstanding performance in a wide range of plastic applications.

COST SAVINGS
Reduces material cost without compromising performance

IMPROVED MECHANICAL PROPERTIES
Enhances stiffness, strength and impact performance

EXCELLENT DISPERSION
Fine particle size for uniform dispersion and smooth finish

PROCESSING BENEFITS
Better flow, reduced shrinkage and cycle time improvement

SUSTAINABLE SOLUTION
Uses mineral resources for eco-friendly and efficient production

COST EFFECTIVE PERFORMANCE SOLUTIONS

GRADES & SPECIFICATIONS

GRADE	BASE RESIN	FILLER TYPE	FILLER CONTENT (%)	TYPE OF APPLICATIONS
FM-101	PE	Calcium Carbonate	60	Blow Molding, Film, Pipe, Profile, Sheet
FM-201	PP	Calcium Carbonate	60	Injection Molding, Woven Sacks, Household Products
FM-301	PP	Talc	50	Automotive Parts, Electrical Components, Appliances
FM-401	PE	Talc	50	Films, Lamination, Extrusion Coating
FM-501	PP	Glass Fiber	20	High Strength Parts, Industrial Components
FM-601	PP	Barium Sulfate	60	Radiation Shielding, Medical, Industrial Parts
FM-701	PE	Kaolin	60	Film, Sheet, Pipes, Profiles
FM-801	PP	Calcium Carbonate + Talc	50	Cost Effective General Purpose Applications

* Filler content and carrier resin can be customized as per customer requirements.

AVAILABLE SHADES

CALCIUM CARBONATE (White)

Bright white, high filler loading for cost savings

TALC FILLED (Light Grey)

Improved stiffness and heat resistance with smooth finish

GREY BASED (Grey)

Balanced properties for diverse general applications

NATURAL BASED (Off White)

Good dispersion and natural appearance

CUSTOM SHADES (As per requirement)

Tailor-made shades available as per customer needs

Custom filler combinations and formulations available to meet specific performance and application requirements.

COST EFFECTIVE
Reduces overall production cost significantly

BETTER MECHANICAL PROPERTIES
Improves stiffness, strength and impact performance

THERMAL & DIMENSIONAL STABILITY
Enhances heat resistance and dimensional stability

PROCESSING ADVANTAGE
Better flow, reduced shrinkage and cycle time

CONSISTENT QUALITY
Uniform dispersion ensures consistent performance

USES / APPLICATIONS

PACKAGING & FILMS

Improves stiffness, reduces cost and enhances opacity in films and bags.

PIPES & FITTINGS

Enhances dimensional stability and rigidity in pipes, conduits and fittings.

HOUSEHOLD PRODUCTS

Used in buckets, bins, storage containers and general household items.

WOVEN & RAFFIA

Improves strength, printability and reduces overall cost in woven and raffia products.

AUTOMOTIVE

Used in interior parts, trims and non-structural components for better performance.

SHEETS & PROFILES

Enhances rigidity and surface finish in sheets, boards and profiles.

ELECTRICAL & ELECTRONICS

Improves dimensional stability and dielectric properties in electrical components.

AGRICULTURE

Used in mulch films, greenhouse films, plant pots and other agricultural products.

CONSISTENT QUALITY

RELIABLE PERFORMANCE

CUSTOMER SATISFACTION

YOUR PARTNER IN MASTERBATCH SOLUTIONS

One Solution. Endless Possibilities.

Masterbatches are the key to enhancing the functionality, appearance and performance of plastic products. From adding vibrant colours to imparting advanced properties, our comprehensive range of masterbatches delivers consistent quality, cost efficiency and sustainability across diverse industries.

CONSISTENT QUALITY
Uniform quality in every batch

EXCELLENT DISPERSION
Fine dispersion for smooth finish

COST EFFECTIVE
Optimized formulations for maximum savings

SUSTAINABLE SOLUTIONS
Environment-friendly options for a greener future

CUSTOMER FOCUS
Dedicated support and technical expertise

OUR MASTERBATCH RANGE

BLACK MASTERBATCH

Provides deep black color, UV resistance and excellent dispersion for a superior finish.

Key Benefits

- ✓ High Tint Strength
- ✓ Excellent UV Resistance
- ✓ Good Weatherability
- ✓ Consistent Quality

Applications

- Pipes & Fittings
- Film & Sheet
- Automotive Parts
- Crates & Pallets
- Electrical Conduits

Shades Available

WHITE MASTERBATCH

Delivers high opacity, brightness and excellent whiteness for a clean and premium look.

Key Benefits

- ✓ High Opacity
- ✓ Excellent Brightness
- ✓ Good Dispersion
- ✓ Food Contact Safe Options Available

Applications

- Packaging Films
- Household Products
- Pipes & Fittings
- Woven Sacks
- Sheets & Profiles

Shades Available

COLOUR MASTERBATCH

Offers a wide spectrum of vibrant and custom shades with excellent heat stability and consistency.

Key Benefits

- ✓ Wide Colour Range
- ✓ High Colour Strength
- ✓ Excellent Heat Stability
- ✓ Good Light Fastness

Applications

- Packaging
- Toys & Consumer Goods
- Household Products
- Agricultural Films
- Textiles & Fibers

Shades Available

ADDITIVE MASTERBATCH

Enhances performance with special properties like UV protection, anti-block, flame retardant, slip, antiblock and more.

Key Benefits

- ✓ Improves Performance
- ✓ Adds Special Properties
- ✓ Easy to Process
- ✓ Cost Effective

Applications

- Films & Sheets
- Pipes & Fittings
- Woven & Raffle
- Automotive Parts
- Electrical & Electronics

Types Available

FILLER MASTERBATCH

Reduces material cost while improving stiffness, dimensional stability and processed product quality.

Key Benefits

- ✓ Cost Savings
- ✓ Improved Stiffness
- ✓ Dimensional Stability
- ✓ Better Surface Finish

Applications

- Pipes & Profiles
- Films & Sheets
- Injection Molding
- Blow Molding
- WPC & Compounds

Filler Types Available

SPECIAL PURPOSE MASTERBATCH

Tailor-made solutions for unique requirements with advanced formulations and high performance.

Key Benefits

- ✓ Custom Solutions
- ✓ High Efficiency
- ✓ Process Friendly
- ✓ Sustainable Options

Applications

- Engineering Plastics
- Medical & Healthcare
- Food Packaging
- Construction
- High Performance Applications
